Because it is durable. And durability comes not only through excellent materials, but also through exactness of fit; a garment that fits is not subjected to strain at parts where strain is not planned for. TAFT'S ANTI-TRUST RECORD.

Under the last five administrations prosecutions under the Shermen enti-trust lew heva been brought ae follows:

Crim-Civil inal auits. suits. Total. Under Herrison

(threa years).... 4 Under Cleveland (four years).... 5 Under McKinley (four and oneyears)..... Threa bills in equity.

Under Roosevelt (seven end onahelf yeers)..... 18 25 44* Under Teft

(two years and elevan months)., 22 40 *One property seizure. The ratio of prosacutions, ellowing for length of time in office, of the Taft administration

as compered with the records of Its four immediata predecessors ie approximetely as follows: Taft over Herrison..... 9 to 1

Taft over Cleveland..... 12 to 1 Taft over McKinlay..... 30 to 1 Taft over Roosevelt..... 4 to 1

President Taft's administration has broken all records for prosecutions brought and won under the Sherman anti-trust law. Without fear or favor it has brought to the bar of justice corporations and persons engaging in illegal combinations in restraint of trade, the ultimate purpose of each combination being to create a monopoly and to raise the prices on its products. in two years and eleven months of his administration President Taft has caused to be brought four more civil sults and fifteen more criminal prosecutions than Mr. Roosevelt brought in the seven and one-half years of his administration.

Until Mr. Taft became the president the administration of Mr. Roosevelt held the record in both particulars. Thus has President Taft, who was Mr. Roosevelt's right arm during his last administration, kept his piedge to the American people to uphold and maintala the policies of his predecessors lu punishing the criminals and undesirable element in the blg business of the

In the Republican untional platform of 1908 reference was made to the prosecution of evil trusts and monopolies as one of the great accomplish ments of the Roosevelt administration. and the platform declared that the Sherman anti-trust law had been a wholesome instrument for good in the bands of a wise and fearless executive. In his speech of neceptance Mr. Taft pledged himself to the enforcement of this law and has kept his promise.

Probleme Confronting Teft. Stripped of controversy as to the exact meaning of certain language of the Sherman auti-trust act, the questions that had to be determined by those in administrative authority and those who judicially determine their acts were, first, how effective the law

was to reach the great aggregations of formerly competitive producers and dealers, individual and corporate, who, through intercorporate stockholding mergers, consolidations and otherwise, had acquired so great n control over n particular line of industry as to enable them to dominate it and to exclude or admit competition as they might choose upon their own terms.

Secondly, to determine whether that construction of the law was correct which had been given to it by some of the judges of the circuit court la New York in the tobacco case and in the opinious of some of the justices of the supreme court in other cases to the effect that any combination which la any respect operated to restrain to any degree n pre-existing competition in condemued by law.

In the three years of the Taft administration all of the sixteen cases left pending by the previous administration linve been disposed of except two, which have been argued and submitted to the supreme court of the United States and are now awaiting decision. Of the remaining cases the Standard Oll case was argued early Phone 520. during the present administration and, after an appeal, decided entirely in favor of the government. The same was also true of the tobacco cases, with the ultimate result of the dishtegration of that big trust late fourteen separate and distinct corporations. This, it is believed, will effectively prevent a continuance of the monopolistic conditions complained of.

Taft Antl-trust Record. During the Taft adulalstration up to February, 1912, twenty-two civil suits have been brought and forty criminal Indictments found under the Sherman law, making in all slx1y-two proceedlugs. As a resuit there were tifteen Indictments, and eleveu of these in-
